**FAMILY IS FOREVER**

**National Assisted Living Week®**  
**September 10-16, 2017**

**National Assisted Living Week**

The theme for this years assisted living week is perfect and so true..."Family is Forever". The theme is inspired by a quote by poet Maya Angelou, "*Family isn't always blood, it's the people in your life who want you in theirs: the ones who accept you for who you are, the ones who would do anything to see you smile and who love you no matter what.*"

In my eyes, this is exactly what our community is all about. We are blended together, residents and staff members, at different stages in our lives but all wanting the best for each other; willing to do what it takes to make each other laugh, smile, feel safe, cared for, and most of all...loved.

We are not perfect, but God has brought us together and we will celebrate "our family" and all those that support, volunteer and help this community thrive, flourish and grow.

Come join in during the week and enjoy our special activities, guests and have some fun!!!!

A group of wonderful folks came from First Christian Church and helped us join in Mason Rocks KY Facebook. They brought rocks that we could paint and share with the Maysville community. While you are out and about, you may just find a Kenton Pointe original painted by our artistic group. A HUGE THANK YOU to the First Christian Church ladies for sharing their time and talents with us!!

Button Trees... Jessie Fulton Rice, her husband Dewayne, and daughter Taylor, led our group in crafting some beautiful trees made with button leaves. Jessie has been coming into our community once a month and sharing her talent and crafting abilities with us. We always look forward to our time with her and we are in suspense until she arrives since she keeps the craft a secret till craft day. Thank you to the Rice family for sharing their time and talent.

We caught a great shot of Sanford and his lovely granddaughter taking in the eclipse. They were kind enough to pose for a moment. Always safety first when looking at the sun but especially during an eclipse. Sanford's family shared their glasses so those that wanted to actually see the eclipse could. The rest of us felt safer watching it on TV.
